

ENERGY PORTFOLIO • TANZANIA • FROM CORPORATE PROFILE 2026

WEBSITE PROPOSAL

A website that can sit in front of a mandate.

An institutional corporate website for Jembe Group LLC: five sectors, operating energy assets, a mandate desk, and copy grounded in the 2026 corporate profile — not a brochure leftover.

PREPARED FOR
Jembe Group LLC

■ LETTER FROM THE FOUNDER

Dear Jembe Leadership,

I read the 2026 corporate profile before writing this. The work is serious: operating solar in Shinyanga and Bukombe, grid substations, a national water-backbone file, a medical scheme covering thousands of lives, a gold-processing analysis in Tarime. That is not a generic conglomerate slide.

A PDF cannot do what a website must do for a group like this. A sponsor, DFI, ministry, or insurer arriving cold needs to understand the five sectors, see the energy assets as operating facts, and reach a desk that routes by counterpart and sector — in the first minute.

This document is a **website engagement only**. Social media is out of scope here and is not priced. The recommendation is Professional Presence (site, SEO, local profile), plus a mandate desk, site search, and full-site copywriting adapted from the profile, with Professional Care after launch.

An interactive preview of the proposed site is already prepared from the profile. Scan the QR on the cover, or open the last page. What remains is confirmation of public facts, domain, SEO and local profile, training, and go-live.

I look forward to the conversation.

Karen Marie Kasigila

Founder, KasiTech

Technology that helps businesses move faster.

SCOPE OF THIS DOCUMENT

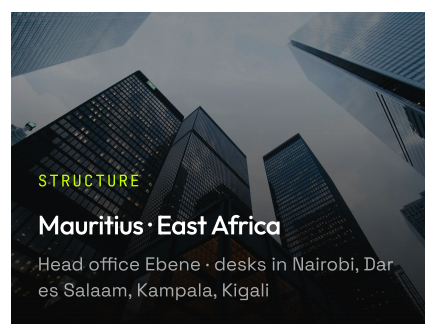

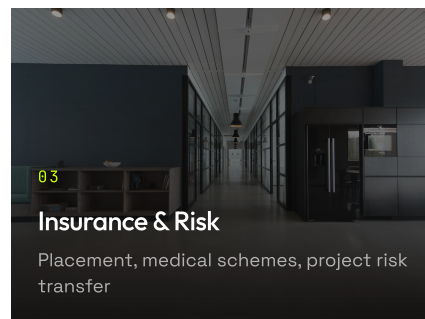

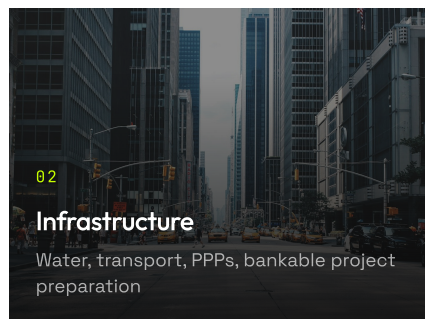

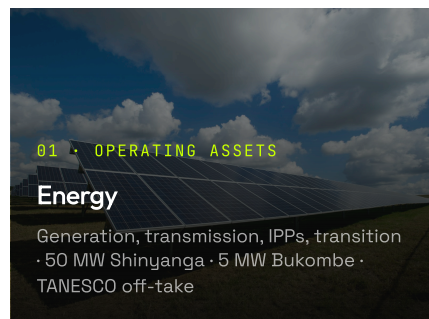

Website • SEO • Local profile •
Mandate desk • Site search •
Copywriting • Care. Social media is
not included and is not proposed
here.

Website engagement at a glance.

PROJECT Corporate Website Professional Presence · Mandate desk · Search · Copy · Care	ONE-TIME INVESTMENT TSh 5,500,000 Base total · KT-JEM-WEB-2026-001	MONTHLY CARE TSh 150,000 Professional Care (CARE-PRO) / month
PREVIEW STATUS Ready to review Interactive site already prepared from the 2026 profile	PROPOSAL STATUS Confidential Ref KT-JEM-WEB-2026-001 · Pending acceptance	VALIDITY 30 days From 28 August 2026
DELIVERABLES SUMMARY Professional website (up to 20 pages/templates) · Five-sector architecture · Energy asset tables · Track record · Office ledger · Resource centre · Careers · Mandate desk · Advanced site search · Professional SEO · Google Business Profile · Copywriting up to 20 pages · Analytics baseline · Operator training · Professional Care

Five sectors. One origination desk.

From Corporate Profile 2026: Jembe Group LLC is a Mauritius-incorporated multi-sector advisory and investing group, with East African desks. The website should make that map clear in seconds.

WHAT WE DO NOT INVENT

Revenue, headcount, and engagements that are not in the 2026 profile stay off the site. Asset tables and tombstones use only stated facts.

DESIGN IMPLICATION

Homepage and navigation must show all five sectors. Energy assets should read as operating infrastructure, not a brochure claim. The mandate desk is the conversion surface.

■ CURRENT DIGITAL POSITION

The profile is institutional. The public web is not yet.

This is not a teardown of a live site. Jembe supplied a Corporate Profile 2026. The gap is between that file and what a counterparty can use on the open web.

WHAT ALREADY EXISTS

- A 2026 corporate profile with sector map, energy assets, network entities, and selected engagements
- Operating facts that can be tabulated: 50 MW Shinyanga, 5 MW Bukombe, TANESCO off-take, 132/33 kV substations
- A delivery story through BQ Contractors Ltd (ISO 9001:2015) that is rare for an advisory group

WHAT A PDF CANNOT DO

- A ministry or DFI cannot search sectors, assets, and offices from a phone in a corridor
- A generic inbox does not route sponsor vs lender vs scheme vs EPC
- Five desks (Mauritius and East Africa) need a ledger, not a single footer line

FACTS PENDING CONFIRMATION

- Addresses and telephone numbers as printed in the profile — confirm before a live domain
- Domain www.jembegroup.com as stated in the profile — confirm ownership and DNS
- Public emails (info@, country desks) — confirm which should publish

INTEGRITY RULE

- No invented MW, lives covered, or mandate outcomes beyond the profile
- Photography is licensed atmosphere plus the group mark — not claimed as Jembe site photography
- The preview is labelled as a proposed website until Jembe accepts and facts are confirmed

ASSESSMENT SUMMARY

Jembe already has the substance. The website's job is to hold that substance in a form a counterparty can use: sector wall, asset tables, tombstones, office ledger, mandate desk. The preview does that work. Launch waits on confirmation, not on a new concept.

TRANSFORMATION SPREAD

From a profile PDF to a desk a counterparty can use.

Today

- ✗

Substance locked in a PDF
Serious work, but not searchable or shareable as a live presence.
- ✗

No public sector map
Five practices read as a document, not as a platform a visitor can enter.
- ✗

No mandate routing
A generic inbox cannot tell sponsor from DFI from scheme from EPC.
- ✗

Assets not tabulated for the web
Shinyanga, Bukombe, and substations need investment-memo tables, not paragraphs.

Recommended

- ✓

Institutional website, already previewed
Scan the QR. The proposed site is not a mood board.
- ✓

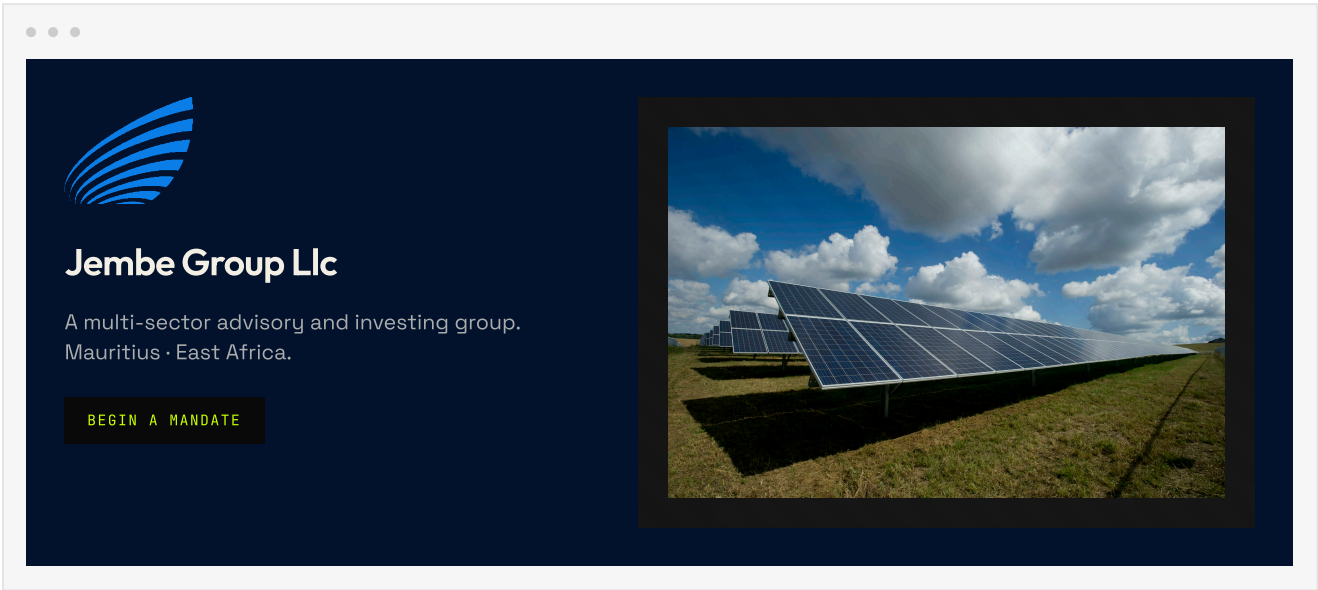

Five-column sector wall
Energy, infrastructure, insurance, agribusiness, mining — one platform.
- ✓

Mandate desk (ADD-QUOTE)
Counterpart × sector. The right entity in the network can respond.
- ✓

Asset tables and tombstones
Operating plants and selected engagements as files, not slogans.

RECOMMENDED WEBSITE EXPERIENCE

Picture the homepage: mark, five sectors, then operating assets.

01	02	03	04	05
Cover Wing mark, group name, one line. Primary CTA: Begin a mandate. Geography: Mauritius · East Africa.	Sector wall Five photographic columns: Energy, Infrastructure, Insurance & Risk, Agribusiness, Mining. Each opens its practice page.	Who we are Mauritius-incorporated. East Africa focused. Four disciplines under one roof — not a product catalogue.	Energy in focus 50 MW Shinyanga and 5 MW Bukombe as investment-memo tables. Operating, not aspirational.	Mandate Segmented desk: counterpart and sector travel with the note. Replaces a generic contact form.

VISUAL DIRECTION

Navy #02122C, champagne gold #C9A56A, diamond hairline rules from the profile cover. The azure wing mark is the logo, not a SaaS accent colour. Quiet, institutional, print-literate.

THIS IS ALREADY BUILT

The interactive preview follows this direction. Leadership can review the real pages, not a conceptual frame. Remaining work is confirmation, SEO, local profile, training, and launch.

Home · Sectors · Energy assets: pages already in the preview.

Frames from the proposed site. Not mood boards.

Homepage Cover · sector wall · who we are · energy tables

Five sectors Index plus a dedicated page for each practice

Energy assets Shinyanga · Bukombe · substations · TANESCO

- 01
- ### Homepage

Visitor lands on the mark and the group name. Within one scroll: five sectors, the group line, and operating energy tables. Primary action is Begin a mandate, not a vague “contact us.”

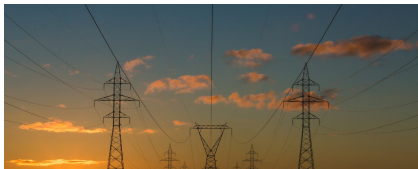

- 02
- ### Sectors

A five-practice index, then dedicated pages for Energy, Infrastructure, Insurance & Risk, Agribusiness, and Mining. Mega-navigation keeps the map visible. Page budget stays inside WEB-PRO (up to 20 pages/templates).

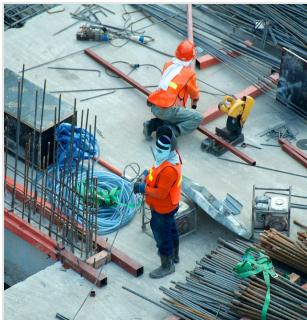

- 03
- ### Energy assets

Investment-memo tables for generation and grid. Off-taker stated. Status stated. Owner stated where the profile states it. No invented capacity.

Delivery · Track record · Offices · Mandate desk.

The pages a DFI, ministry, or sponsor actually uses after the first minute.

BQ Contractors
Delivery Ltd · ISO
9001:2015

Track Five tombstones
record from the profile

Five desks ·
Offices confirm before
go-live

MandateCounterpart ×
desk sector routing

Delivery and network

04

Advisory that can still pour concrete — BQ as EPC partner — plus the interlinked entities (Infinity Star, Next Bridge, Mbegu, Ndege, CreditInvest). Assembled around the mandate, not presented as a conglomerate brochure.

Track record

05

Utility-scale solar and grid; Project Sisal; Tanzania National Water Backbone advisory; mining-sector medical scheme; Tarime gold processing analysis. Roles stated as in the profile. Nothing padded.

Offices and mandate

06

Office ledger for five desks, with a visible notice that numbers are pending confirmation. Mandate form captures counterpart, sector, organisation, and notes. Site search (ADD-SRCH) finds sectors, assets, offices, and entities.

Sixteen pages. Every one mapped to catalog scope.

PAGE	WHAT IT DOES	CATALOG HOME
Home	Cover, sector wall, group line, energy tables, mandate CTA	WEB-PRO
The Group	Incorporation, four disciplines, Mauritius / East Africa story	WEB-PRO
Sectors + 5 practices	Index and dedicated Energy, Infrastructure, Insurance, Agri, Mining pages	WEB-PRO · INCLUDED
Energy assets	Shinyanga, Bukombe, substations as investment-memo tables	WEB-PRO · PORTFOLIO
Delivery · Network	BQ EPC capability and interlinked entities	WEB-PRO
Track record	Five selected engagements as tombstones	WEB-PRO · CASE STUDIES
Offices	Five-desk ledger with confirmation notice	WEB-PRO · DIRECTORY
Resources · Careers	Downloadable files and expressions of interest	WEB-PRO · INCLUDED
Mandate desk	Counterpart × sector intake	ADD-QUOTE
Advanced IA · ≤20 pages	Multi-sector navigation without burying operating energy assets or the mandate desk.	WEB-PRO · INCLUDED
Projects · Case studies	Energy portfolio tables and track-record tombstones. No invented mandates.	WEB-PRO · INCLUDED
Resources · Careers · Offices	Resource centre, careers interest, five-desk ledger. Directories included in Professional — not charged again as ADD-MULTI.	WEB-PRO · INCLUDED
Professional SEO Setup	Technical and on-page foundations for a multi-sector institutional site.	SEO-PRO · IN BUNDLE
Google Business Profile	Local findability. Desk to publish is confirmed with Jembe (Dar es Salaam likely; Mauritius as registered office).	LOC-GBP · IN BUNDLE
Quote Request System	Mandate desk: sponsor, government, investor, DFI, corporate, delivery partner × five sectors.	ADD-QUOTE
Advanced Site Search	Search sectors, assets, offices, entities. In the preview, therefore in the base price — not an optional extra.	ADD-SRCH
Copywriting · up to 20 pages	Full-site copy adapted from Corporate Profile 2026. Sixteen pages in the map; COPY-20 is the honest SKU, not COPY-10.	COPY-20

Social media is out of scope for this proposal and is not priced. Hosting and domain are third-party.

INVESTMENT BREAKDOWN

This quote is TSh 5,500,000. Below is exactly what that buys, line by line.

ONE-TIME WEBSITE INVESTMENT	MONTHLY THEREAFTER
TSh 5,500,000	TSh 150,000 / mo

CODE	LINE ITEM	WHY THIS LINE	AMOUNT
BND-PRES	Professional Presence bundle Includes WEB-PRO (TSh 3,250,000 value) + SEO-PRO (TSh 750,000) + LOC-GBP (TSh 150,000)	Core corporate site for a multi-sector group: advanced IA, up to 20 pages/templates, projects, resources, careers, SEO, and Google Business Profile. Standalone would be TSh 4,150,000. Bundle saves TSh 400,000.	3,750,000
ADD-QUOTE	Quote Request System	Mandate desk. Counterpart type and sector travel with the note so the right desk can respond. A generic contact form is the wrong instrument for this group.	300,000
ADD-SRCH	Advanced Site Search	Already in the interactive preview. Charged because it is in scope — we do not hide a built feature as a free extra, and we do not list it later as optional.	350,000
COPY-20	Copywriting · up to 20 pages	Sixteen pages in the map, adapted from Corporate Profile 2026. COPY-10 would understate the work. We do not invent facts the profile does not state.	1,100,000

ONE-TIME TOTAL	TSh 5,500,000
3,750,000 + 300,000 + 350,000 + 1,100,000	

BUNDLE SAVINGS WEB-PRO + SEO-PRO + LOC-GBP standalone = TSh 4,150,000. BND-PRES charges TSh 3,750,000. You save TSh 400,000.	MONTHLY · CARE-PRO TSh 150,000 / month Professional Care after launch. Billed separately from the one-time total. Not on the commencement invoice.
--	--

INCLUDED IN WEB-PRO (DO NOT CHARGE AGAIN)

≤20 PAGES/TEMPLATES	ADVANCED IA	BLOG / NEWS	PROJECTS / PORTFOLIO	CASE STUDIES	OFFICE LEDGER
RESOURCE CENTRE	CAREERS	ANALYTICS BASELINE			

ONGOING PARTNERSHIP

Professional Care: after launch, the site stays sharp.

CARE-PRO • PROFESSIONAL CARE

TSh 150,000 /month

Monthly care for a higher-stakes site. Exact hours, SLA, and backup allowances are confirmed in writing with your quotation.

Upkeep

Updates, monitoring posture, and continuity so Jembe's site does not drift after launch.

Content support

Room within the Professional tier to keep key pages current as mandates and messaging evolve. Confirmed in quotation.

Partnership rhythm

A continuous monthly relationship, not a "fix it when it breaks" vendor model.

HOW CARE SITS AFTER LAUNCH

WHAT CARE IS NOT

Care is not a rebuild, a new sector launch, or social media management. Major new scope is quoted separately. Social is not proposed in this document. Priority Care is an optional upgrade path (see Optional add-ons).

BILLING

Professional Care is billed monthly in advance, commencing at launch (or as agreed in the quotation). One-time website fees follow the 50% / 30% / 20% schedule on page 03. Care is not included on commencement invoice KT-INV-JEM-2026-001.

DELIVERY PLAN

The site is designed. Launch is a confirmation path, not a blank page.

STATUS, STATED PLAINLY

The interactive preview already holds the architecture, visual system, and profile-based copy. Remaining work is fact confirmation, SEO-PRO, Google Business Profile, operator training, domain/hosting connection, and go-live. We do not bill this as a from-scratch 14-day concept exercise.

Already done	Design, IA, preview build, profile copy VISIBLE NOW AT /PREVIEW/JEMBE/ Leadership can review the real site. 50% commencement (TSh 2,750,000) accepts the engagement and unlocks launch work.
Days 1 to 3	Fact confirmation workshop OFFICES · PHONES · EMAILS · DOMAIN · WHICH DESK PUBLISHES ON GBP Nothing on a live domain that Jembe has not confirmed. Profile numbers stay labelled until then.
Days 4 to 7	SEO, local profile, search QA, copy lock SEO-PRO · LOC-GBP · ADD-SRCH QA · COPY-20 LOCK 30% design/development approval (TSh 1,650,000) when Jembe signs off the confirmed public facts and remaining Professional Presence items.
Days 8 to 10	QA, training, launch readiness UAT · OPERATOR TRAINING · GO-LIVE CHECKLIST · CARE-PRO START Final 20% (TSh 1,100,000) before launch. Target holds when Jembe turnaround is prompt.

Deliverables checklist

Professional website · up to 20 pages/templates (preview already prepared)	Five-sector IA · energy assets · track record · offices
Mandate desk (ADD-QUOTE) · Advanced site search (ADD-SRCH)	Copywriting · up to 20 pages from Corporate Profile 2026
Professional SEO Setup · Google Business Profile	Analytics baseline · operator training · Professional Care commencement

OPTIONAL ADD-ONS

Not included in the base investment.

These add-ons are optional. They are not in the base price of TSh 5,500,000. They are only added if Jembe chooses them. Prices match the KasiTech catalog (KT-PB-2026.1). Advanced Site Search is **not** listed here — it is already in the base quote.

CODE	ADD-ON	WHAT IT IS · WHY JEMBE MIGHT WANT IT	PRICE
ADD-FILE	File Uploads	Let a sponsor or ministry attach a teaser, IM, or RFP to the mandate desk. Useful when counterparties already have a file and should not start from a blank note.	100,000
ADD-STEP	Multi-step Form	Longer qualification for complex mandates (asset, geography, capital sought) without a single overwhelming page.	250,000
ADD-LAND	Custom landing page	A focused page for a live mandate or capital raise, kept off the main homepage.	250,000
LOC-REV	Review Strategy Setup	Less central for a Mauritius-incorporated advisory group than for a consumer brand. Available if Jembe wants review hygiene beside GBP.	100,000
HOST-EMAIL	Business email setup	Configuration for up to 5 addresses on the confirmed domain. Mailbox subscription / provider fees are separate.	150,000
LANG-ENSW	Bilingual EN/SW	Proper English and Swahili coverage. Relevant for public-facing Tanzania desks; the current preview is English, matching the profile.	400,000

OPTIONAL CARE UPGRADE (NOT ADDITIVE TO CARE-PRO)

Priority Care (CARE-PRI) at TSh 300,000 / month is an upgrade path if Jembe wants faster response than Professional Care. It replaces CARE-PRO. It is not stacked on top of the TSh 150,000 / month plan. Choose one care tier.

HOW TO ADD THESE

Tell us which codes you want at kickoff or during confirmation. We confirm them in writing before they are billed. Social media remains out of scope unless a separate proposal is requested.

PARTNERSHIP

Why KasiTech, and what happens next.

Evidence before decoration This proposal is grounded in Corporate Profile 2026 and a working preview. Not generic pitch slides. Facts that are not in the profile are not invented.	Catalog discipline Every line maps to approved catalog codes (BND-PRES, ADD-QUOTE, ADD-SRCH, COPY-20, CARE-PRO). Payment follows the published schedule for amounts above TSh 5,000,000.	Clear scope Build and launch Professional Presence. Maintain with Professional Care. Social is not bundled in. Optional add-ons only if Jembe chooses them.
---	--	---

Next steps

- 01

Review this website proposal and the preview

Leadership aligns on scope, investment, and the confirmation path to launch.
- 02

Accept and pay commencement

Sign the Acceptance page. Invoice KT-INV-JEM-2026-001 bills TSh 2,750,000 (50%).
- 03

Confirm facts, then launch

Workshop on offices, domain, and GBP · remaining 30% / 20% · CARE-PRO at go-live.
