SOCIAL MEDIA PROPOSAL

A professional social engine for Credo Energy Group.

Social media management only — Social Pro (SOC-PRO). Website engagement is proposed separately under KT-CEG-WEB-2026-001.

■ LETTER FROM THE FOUNDER

Why social, and why now.

Dear Credo Leadership,

Credo Energy Group presents itself publicly as a Tanzanian conglomerate advancing sustainable development, innovation, and industrial transformation across Africa. Your portfolio — solar cooling, smart utilities, renewables, EV, drones, and digital/telecom — is the kind of breadth that institutional buyers, distributors, and partners notice.

What they also notice is whether your digital voice matches that seriousness. Public trust gaps on **credogroupllc.com** (placeholder About content, inconsistent contact details, misaligned enquiry taxonomy) mean social channels cannot afford to sound casual or meme-driven. Social must reinforce institutional credibility while the website engagement proceeds on its own track.

This proposal covers **social media management only**. A separate website proposal — **KT-CEG-WEB-2026-001** — addresses the corporate site. The two engagements complement each other; neither depends on accepting the other.

We recommend Social Pro (**SOC-PRO**) from the KasiTech price book: a professional corporate cadence for Instagram and Facebook, with LinkedIn as a later option once the visual and voice system is stable.

I look forward to building Credo's public voice with the same discipline you bring to infrastructure.

SCOPE BOUNDARY

This document is social only.
Website pricing and deliverables
live in KT-CEG-WEB-2026-001.

INSTAGRAM NOTE

Public handle referenced:
@credoenergygroup_ltd.
Ownership and admin access to be
confirmed at kickoff.

CREDO BRAND VOICE FOR SOCIAL

Confident. Technical. Africa-forward. Never casual for effect.

Social for an energy and technology conglomerate should sound like a boardroom briefing, not a lifestyle brand. Tone will be refined with Credo brand assets once supplied.

REGISTER	VISUAL	AUDIENCE
Institutional	Infrastructure-led	B2B & partners
Clear, precise language. Prefer outcomes and capability over hype.	Real products, sites, and systems. Atmosphere with purpose — not stock cliché.	Distributors, commercial buyers, utilities, institutional counterparts — then public awareness.

WE WILL	WE WILL NOT
- Lead with technology, projects, and industry perspective - Use captions that explain value in plain executive English - Keep hashtags sparse, relevant, and market-aware - Credit field work and people with dignity - Align visuals to Credo brand once guidelines are shared - Escalate sensitive topics (policy, claims, partners) for Credo approval	- Run meme formats, slang trends, or viral bait - Invent project outcomes or certifications - Overpromise delivery timelines or product performance - Post unverified competitor comparisons - Use placeholder team names or stock “success” stories as Credo fact - Treat social as a substitute for a credible website

VOICE SAMPLE (ILLUSTRATIVE)
“Across solar cooling, smart metering, and renewable infrastructure, Credo designs systems that communities and operators can measure. This week: how prepaid utility metering reduces commercial loss — and what operators should ask before they buy.”

CHANNEL STRATEGY

Instagram for presence. Facebook for reach. LinkedIn when ready.

SOC-PRO supports up to three platforms. We recommend starting with two active channels and adding LinkedIn after brand voice and creative systems are proven — not overpromising a full B2B LinkedIn engine on day one.

PRIMARY · VISUAL

Instagram

Primary brand surface for feed posts, carousels, stories, and short-form video. Handle referenced publicly: **@credoenergygroup_ltd** (ownership to confirm).

Job: Make Credo look and feel like the conglomerate it is — infrastructure gravity, product clarity, institutional tone.

REACH · COMMUNITY

Facebook

Broader distribution for announcements, shared feed creative, and community conversation during business hours (EAT).

Job: Extend reach beyond Instagram’s visual core; support local and regional discovery for Credo solutions.

LATER · B2B

LinkedIn

Recommended, not day-one commitment. Ideal for industry POV, partner signals, and executive-facing proof once Credo confirms company page ownership and priorities.

Job: Speak to procurement, partners, and institutional audiences without diluting early focus on IG + FB execution.

OPERATING PRINCIPLE

One Credo visual system across active channels. Adapt crop and caption length per platform — never fragment brand meaning.

ACCESS REQUIRED AT KICKOFF

Business Manager / page roles for Instagram and Facebook (and LinkedIn if activated). Admin ownership confirmed by Credo before publishing begins.

CONTENT PILLARS

Four pillars. One conglomerate story.

Every post maps to a pillar. Mix shifts month to month with Credo priorities and approved assets — never random posting.

PILLAR 01

Technology

Products and capabilities across the Credo portfolio: smart solar AC, utility metering, renewables, EV, drones, digital/telecom. Explain what it is, who it serves, and why it matters — without inventing specs Credo has not approved.

PILLAR 02

Projects

Field proof: installs, deployments, and outcomes using Credo-supplied photography and facts. Where project details are pending confirmation, we hold or frame content as capability narrative — never fabricated case studies.

PILLAR 03

Industry POV

Energy transition, smart utilities, and infrastructure perspective for Tanzania and Africa. Positions Credo as a thinking operator — measured, useful, and executive-grade — not a news aggregator.

PILLAR 04

People

Team, partners, and customer success told with dignity. Spotlights and culture moments that humanise Credo without drifting into lifestyle fluff. Names and quotes only with Credo approval.

CONTENT FORMATS

Formats that carry institutional weight.

Visual mocks below use licensed atmospheric photography as direction — final creative aligns to Credo brand assets once provided.

Feed post

INSTAGRAM · FACEBOOK

SINGLE-IMAGE AUTHORITY

Hero still + executive caption. Best for brand gravity, announcements, and product introductions.

Carousel

INSTAGRAM · FACEBOOK

MULTI-FRAME EDUCATION

Specs, steps, or portfolio sequences. Ideal for Technology and Industry POV pillars.

Reel / short-form

INSTAGRAM · 2 / MONTH

PERFORMANCE CUT · ~15-45S

Product motion, site atmosphere, or before/after infrastructure story. Professional editing — not trend audio theatre.

LinkedIn-style (later)

OPTIONAL · B2B

INSTITUTIONAL POV FRAME

Longer caption, proof-led imagery. Recommended after IG/FB rhythm is stable — not overpromised at kickoff.

MONTHLY OPERATING CALENDAR · SAMPLE

A professional corporate cadence — adaptable each month.

Illustrative sample for Social Pro. Final calendar co-created after kickoff with approved messaging, brand assets, and Credo priorities. Scoped volume: **12–16 custom feed posts · 8 stories · 2 reels.**

WEEK 1 · AUTHORITY	WEEK 2 · PROOF	WEEK 3 · PERSPECTIVE	WEEK 4 · DEMAND
TECHNOLOGY Smart prepaid metering explainer — carousel	PROJECTS Field narrative — Credo-supplied assets	INDUSTRY POV Smart utilities note for TZ / Africa	CORPORATE Partner / distributor CTA — feed
CORPORATE Credo conglomerate positioning — feed	TECHNOLOGY EV solutions lineup — carousel	PEOPLE Team spotlight — engineering / ops	PROJECTS Renewables atmosphere + enquiry path
STORIES ×2 Product detail + poll (Ask Credo)	STORIES ×2 Site atmosphere + FAQ sticker	STORIES ×2 Day-in-the-field sequence	STORIES ×2 Behind creative + soft CTA
REEL 01 Solar AC performance cut · ~30s	PEOPLE Approved customer / partner quote	TECHNOLOGY Drone use-cases — education post	REEL 02 Before/after infrastructure story
ALWAYS INCLUDED Captions, hashtags, scheduling, content calendar, and monthly reporting.	COMMUNITY Business-hours management in EAT — comments and messages handled professionally.	APPROVAL GATE Credo reviews calendar and creative before publish. No surprise posts.	

■ OPERATING WORKFLOW

Brief → Create → Approve → Publish → Report.

A clear monthly loop so Credo stays in control of messaging while KasiTech runs production and community execution.

01	02	03	04	05
Brief Monthly strategy call or written brief. Priorities, launches, constraints, and asset availability from Credo.	Create Content calendar, copy, design, and short-form edits aligned to Credo brand (pending brand assets).	Approve Credo reviews calendar and creative. Feedback consolidated in one round where possible for cadence.	Publish Scheduling across Instagram and Facebook. Stories and reels timed to the approved plan. Community replies in EAT business hours.	Report Monthly report: reach, engagement, top content, learnings, and recommendations for the next cycle.

CREDO RESPONSIBILITIES

Approve messaging and creative · Supply brand assets and project facts · Confirm channel access · Flag sensitive topics early · Designate a single point of contact for turnaround.

KASITECH RESPONSIBILITIES

Monthly strategy · Production within SOC-PRO scope · Scheduling · Community management (business hours EAT) · Reporting · Honest flagging when facts or assets are missing.

Social Pro (SOC-PRO) — catalog price.

MONTHLY PARTNERSHIP · PRICE BOOK CODE SOC-PRO

TSh 1,000,000 /month

BILLING

Monthly in advance

Social Pro inclusions

SCOPED FOR THIS ENGAGEMENT · CORPORATE CADENCE

Monthly strategy	Priorities, messaging focus, and calendar direction for the cycle
12-16 custom feed posts / month	Designed posts for Instagram and Facebook within the Pro cadence
8 stories / month	Supporting story sequences (product, field, engagement)
2 short-form video / reels / month	Professional cuts — not trend-meme production
Community management	Business hours, East Africa Time (EAT)
Captions, hashtags, scheduling	Platform-ready copy and publish operations
Content calendar	Monthly plan submitted for Credo approval
Monthly reporting	Performance summary and next-cycle recommendations
Professional design	Aligned to Credo brand (pending brand assets at kickoff)

WHY SOCIAL PRO FOR CREDO

An energy/tech conglomerate needs more than occasional posts. SOC-PRO funds a sustained corporate engine — enough volume and format mix to stay visible without looking reactive or under-produced.

OPTIONAL ADD-ON · NOT INCLUDED

Meta Ads Setup (ADS-META-S) — TSh 200,000 one-time. Campaign structure and launch setup only. Media spend and ongoing Meta Management are separate if later required.

Website investment is not included in this proposal. See separate website proposal **KT-CEG-WEB-2026-001**.

Commercial terms and what we need to start.

COMMERCIAL TERMS

Plan	Social Pro (SOC-PRO)
Fee	TSh 1,000,000 / month
Payment	Monthly in advance
Cancellation	30-day written notice
Validity	30 days from 2 August 2026
Optional	ADS-META-S TSh 200,000 once (if selected)

KICKOFF NEEDS FROM CREDO

Brand assets — logo files, colours, typography, any existing guidelines (or written interim direction).
Channel access — Instagram & Facebook admin / Business Manager roles; confirm @credoenergygroup_ltd ownership.
Point of contact — one Credo approver for calendar and creative turnaround.
Source material — product facts, approved photography, project claims Credo is willing to publish.

ACCEPTANCE

By signing below, Credo Energy Group accepts Social Pro (SOC-PRO) at TSh 1,000,000 per month under the terms in this proposal. Website work, if any, is governed by KT-CEG-WEB-2026-001 separately.

■ NEXT STEP

Let's put Credo's public voice on the same level as its ambition.

Social Pro gives Credo a disciplined monthly engine — strategy, design, publishing, community, and reporting — priced from the KasiTech catalog at TSh 1,000,000 per month.

01

Accept this proposal

Sign page 10 or confirm in writing.
Validity: 30 days from 2 August 2026.

02

Kickoff package

Brand assets, channel access, approver, and source facts — then month-one calendar.

03

Website (optional path)

Discuss KT-CEG-WEB-2026-001 separately if Credo wants the site and social to move together.

SOCIAL PRO • SOC-PRO
