kasitechinnovations.com | Dar es Salaam

How to read this guide

This is KasiTech's commercial reference manual - not a brochure and not a technical manual. Every product is documented so you can decide with confidence.

HOW SECTIONS ARE ORGANISED

- ✓ 1. At a glance - all items with prices on one page
- ✓ 2. Detail pages - two premium product cards per page, each with a Demo Studio panel
- ✓ Scan prices first. When something stands out, flip to its detail page.

SKIP TO A SECTION

Website packages	p. 3
Popular bundles	p. 8
Popular capabilities	p. 14
Website Care	p. 24
KasiTech Business	p. 25
FAQ	p. 26
Your journey	p. 27

SEE IT LIVE

Each product card includes a Demo Studio panel with QR. Open <https://www.kasitechinnovations.com/demo-studio> to configure live.

Formal quotations confirm final scope, compatibility, timeline, third-party fees, taxes, and commercial terms before commencement. This catalog is not an invoice.

Website packages

Every serious digital presence starts with a website package. Scan prices below, then flip for full inclusions and a live Demo Studio QR for each package.

AT A GLANCE

 One Page A focused presence - campaign, personal brand, or single offer.	TSh 500,000
 Essential Small businesses that need a complete professional website.	TSh 900,000
 Business Growing businesses with more services and content to publish.	TSh 1,500,000
 Business+ Organizations managing team, case studies, and resources online.	TSh 2,250,000
 Professional Organizations with multiple audiences and content types.	TSh 3,250,000
 Signature Brands that need a bespoke digital experience.	TSh 4,500,000
 Custom Platform Portals, dashboards, and operational systems beyond a brochure site.	Custom Quote

What is Website Care?

A website is not finished at launch. Content changes, security needs attention, and small improvements appear. Website Care is the commercial relationship for ongoing maintenance after launch.

Exact hours, response times, and backup allowances are confirmed in your quotation. This catalog lists approved plan names and prices only - we do not invent entitlements.

PLANS

Essential Care

TSh 180,000 / year

IDEAL FOR

Simple sites that need foundational ongoing care

Annual essential care for websites that need a reliable maintenance relationship.

WHEN TO UPGRADE

Move to Standard or Business Care when your site is more active or you need a closer care relationship.

Standard Care

TSh 300,000 / year

IDEAL FOR

Growing sites with regular content feature needs

Annual standard care for businesses that want steadier ongoing support.

WHEN TO UPGRADE

Upgrade to Business Care or a monthly Professional/Priority plan when cadence increases.

Business Care

TSh 600,000 / year

IDEAL FOR

Organizations that treat the website as a primary channel

Annual business-level care for more active digital presence.

WHEN TO UPGRADE

Consider monthly Professional or Priority Care when you need closer ongoing attention.

Professional Care

TSh 150,000 / month

IDEAL FOR

Businesses that want a continuous monthly care relationship

Monthly professional care for higher-stakes websites.

WHEN TO UPGRADE

Priority Care when response urgency and closeness must increase.

Priority Care

TSh 300,000 / month

IDEAL FOR

Mission-critical sites that need priority attention

Monthly priority care - the closest approved care tier.

WHEN TO UPGRADE

Highest approved Care tier - further needs are scoped with KasiTech.

See Care on a live site: <https://www.kasitechinnovations.com/demo-studio?care=professional>

What is KasiTech Business?

KasiTech Business transforms a website into a business management platform - so owners can manage website content, analytics, bookings, customers, catalog/services, feedback, QR experiences, locations, and day-to-day operations from one place.

Only approved modules are documented. Launch unlocks website and analytics basics. Growth unlocks the fuller operator set. Pro, Scale, and Enterprise are commercial tiers - additional modules beyond Growth are scoped with KasiTech, not invented here.

PLANS

* KasiTech Business Launch

TSh 150,000 / month

Owner tools for website basics and analytics - your site becomes manageable day to day.

INCLUDED

- ✓ Approved Launch modules: Overview, Website, Analytics

* KasiTech Business Growth

TSh 400,000 / month

Frequently asked questions

Do I need a website package first?

Most builds start with a website package or a bundle that already includes one. Features alone rarely replace a package unless scoped that way in a quotation.

Can I upgrade later?

Yes. You can move to a higher website package, replace exclusive feature tiers (for example Appointment to Multi-staff), or add Care / KasiTech Business later. Upgrades are confirmed in a new or revised quotation.

Can I combine bundles?

Bundles are designed as complete outcomes. Combining bundles is uncommon and must be confirmed commercially so components are not double-charged incorrectly.

Can I add features later?

Yes. Features can be added after launch via quotation. If a feature is already included in your package or absorbed by a bundle, you are not charged again for that inclusion.

Are domains included?

Domain registration / renewal is a third-party cost (HOST-DOMAIN). We connect your domain as part of website baseline work; the registrar fee is separate.

Is hosting included?

Website hosting is typically a third-party cost (HOST-HOSTING). SSL is included with supported hosting. Confirm hosting arrangement in your quotation.

Who owns the website?

Ownership and licence terms are confirmed in your agreement / quotation. Ask KasiTech to state IP and handover terms in writing before commencement.

Who owns the code?

Code ownership and repository access are commercial terms confirmed in your agreement - not altered by this catalog.

Can KasiTech update my website?

Yes - through Website Care plans and/or scoped change requests. Without Care, updates are quoted as separate work.

Do I need Website Care?

Not mandatory to launch, but recommended once the site is live so updates, security, and care have a clear commercial home.

Do I need KasiTech Business?

Only if you want the owner dashboard modules (analytics, bookings, customers, etc.). Many sites launch without it and add it later.

Can I use Website Care without KasiTech Business?

Yes. Care and KasiTech Business are separate selections.

Can I use KasiTech Business without Website Care?

Yes. They are independent - though many operators eventually want both.

What third-party fees are not included?

Examples include domain registration, hosting, payment provider fees, Google / advertising spend, and SMS gateway fees. These are disclosed as third-party and confirmed before approval.

What happens after I approve a quotation?

We commence the agreed scope, collect required content/access, build, review with you (including revision rounds where included), and launch.

How are payments made?

Payment schedule is stated on your quotation / invoice (milestones as agreed). Catalog prices are not invoices.

What happens after launch?

You may continue with Website Care, add KasiTech Business, or request new features. Demo Studio remains available to explore additions before you buy.

Your journey with KasiTech

1. Choose

Pick a package, bundle, or capability from this catalog.

2. Configure

Open Demo Studio - see the live fictional site and price.

3. Approve

Receive a formal quotation. Nothing starts without written approval.

4. Build

We design and build the agreed scope.

5. Launch

Go live with QA, domain connection, and launch support.

6. Grow

Add Care, KasiTech Business, and new capabilities over time.

Demo Studio sits in step 2 - Configure.
