Commercial buying guide

Understand what we sell, what each service does, what is included, who it is for, how pieces relate, how much it costs, and how to see it live - without guessing.

How to read this guide

This is KasiTech's commercial reference manual - not a brochure and not a technical manual. Every product is documented so you can decide with confidence.

HOW SECTIONS ARE ORGANISED

- 1. At a glance - all items with prices on one page
- 2. Detail pages - inclusions, who it is for, and a Demo Studio QR
- Scan prices first. When something stands out, flip to its detail page.

Full breakdown of each bundle follows.

Business Launch

TSh 1,250,000

WHAT THIS BUNDLE IS

A fast, credible start - essential website, local Google presence, and business email setup together.

WHY THESE SERVICES BELONG TOGETHER

Most new businesses need a website people can trust, a way to be found on Google, and email that looks professional - these belong together at launch.

WHAT IS INCLUDED

- Essential - TSh 900,000 as a standalone service
- Google Business Profile - TSh 150,000 as a standalone service
- Business email setup - TSh 150,000 as a standalone service
- Enhanced SEO (included in this bundle - not a separate catalog charge)
- Analytics (website baseline) (included in this bundle - not a separate catalog charge)

BUNDLE PRICE

TSh 1,250,000

PRICING NOTE

Packaged outcome price. Included entitlements (listed above) are not sold as separate catalog line items, so a 'buy separately' total is not shown.

Beauty & Booking

TSh 1,050,000

WHAT THIS BUNDLE IS

A focused beauty presence with booking path and local discovery so clients can find you and book.

WHY THESE SERVICES BELONG TOGETHER

Beauty clients discover locally, judge the look of the brand, then book. Website, booking path, and Google profile reinforce each other.

WHAT IS INCLUDED

- One Page - TSh 500,000 as a standalone service
- External Booking Integration - TSh 250,000 as a standalone service
- Google Business Profile - TSh 150,000 as a standalone service
- Gallery (included in this bundle - not a separate catalog charge)
- Social integration (included in this bundle - not a separate catalog charge)

BUNDLE PRICE

TSh 1,050,000

Restaurant Bundle

TSh 1,850,000

WHAT THIS BUNDLE IS

Perfect for restaurants that want customers to discover the business, browse the menu, and reserve tables online.

WHY THESE SERVICES BELONG TOGETHER

Diners search Google, check the menu, then reserve. Separating those pieces creates friction; the bundle removes it.

WHAT IS INCLUDED (WITH STANDALONE PRICES)

- Essential - normally TSh 900,000
- Digital Menu - normally TSh 300,000
- Restaurant Reservations - normally TSh 600,000

What is Website Care?

A website is not finished at launch. Content changes, security needs attention, and small improvements appear. Website Care is the commercial relationship for ongoing maintenance after launch.

Exact hours, response times, and backup allowances are confirmed in your quotation. This catalog lists approved plan names and prices only - we do not invent entitlements.

PLANS

Essential Care

TSh 180,000 / year

Simple sites that need foundational ongoing care.

Annual essential care for websites that need a reliable maintenance relationship.

When to upgrade: Move to Standard or Business Care when your site is more active or you need a closer care relationship.

Standard Care

TSh 300,000 / year

Growing sites with regular content or feature needs.

Annual standard care for businesses that want steadier ongoing support.

When to upgrade: Upgrade to Business Care or a monthly Professional/Priority plan when cadence increases.

Business Care

TSh 600,000 / year

Organizations that treat the website as a primary channel.

Annual business-level care for more active digital presence.

When to upgrade: Consider monthly Professional or Priority Care when you need closer ongoing attention.

Professional Care

TSh 150,000 / month

Businesses that want a continuous monthly care relationship.

Monthly professional care for higher-stakes websites.

When to upgrade: Priority Care when response urgency and closeness must increase.

Priority Care

TSh 300,000 / month

Mission-critical sites that need priority attention.

Monthly priority care - the closest approved care tier.

When to upgrade: Highest approved Care tier - further needs are scoped with KasiTech.

See Care on a live site: <https://www.kasitechinnovations.com/demo-studio?care=professional>

What is KasiTech Business?

KasiTech Business transforms a website into a business management platform - so owners can manage website content, analytics, bookings, customers, catalog/services, feedback, QR experiences, locations, and day-to-day operations from one place.

Only approved modules are documented. Launch unlocks website and analytics basics. Growth unlocks the fuller operator set. Pro, Scale, and Enterprise are commercial tiers - additional modules beyond Growth are scoped with KasiTech, not invented here.

PLANS

KasiTech Business Launch

TSh 150,000 / month

Businesses that need to edit the site and see basic traffic signals.

Owner tools for website basics and analytics - your site becomes manageable day to day.

- Approved Launch modules: Overview, Website, Analytics

When to upgrade: Upgrade to Growth when you need bookings, customers, catalog, events, QR, feedback, or locations.

KasiTech Business Growth

TSh 400,000 / month

Operators who take appointments, manage customers, or run events.

Turns the website into a lighter business platform - bookings, customers, and more.

- Everything available at Launch, plus Growth modules: Catalog / Services, Bookings, Customers, Events, QR, Feedback, Locations

When to upgrade: Pro / Scale / Enterprise are priced for larger organisations; additional modules beyond Growth are scoped with KasiTech - not invented here.

KasiTech Business Pro

TSh 800,000 / month

Larger teams ready for a Pro commercial relationship.

Higher commercial plan for organisations that need Pro-tier pricing.

- Approved Demo Studio surface matches Growth modules today
- Additional modules beyond Growth are defined with KasiTech before sale

When to upgrade: Scale or Enterprise when organisational scope requires it.

KasiTech Business Scale

TSh 1,500,000 / month

Multi-location or high-volume operators (as scoped).

Scale-tier commercial plan for expanding operations.

- Approved Demo Studio surface matches Growth modules today
- Additional modules beyond Growth are defined with KasiTech before sale

When to upgrade: Enterprise for custom organisational needs.

KasiTech Business Enterprise

Custom Quote

Enterprises with bespoke operational requirements.

Enterprise plan - custom quotation.

- Scoped in a formal enterprise quotation
- No modules invented beyond approved Growth surface in Demo Studio

When to upgrade: Highest listed plan - scope with KasiTech.

Frequently asked questions

Do I need a website package first?

Most builds start with a website package or a bundle that already includes one. Features alone rarely replace a package unless scoped that way in a quotation.

Can I upgrade later?

Yes. You can move to a higher website package, replace exclusive feature tiers (for example Appointment to Multi-staff), or add Care / KasiTech Business later. Upgrades are confirmed in a new or revised quotation.

Can I combine bundles?

Bundles are designed as complete outcomes. Combining bundles is uncommon and must be confirmed commercially so components are not double-charged incorrectly.

Can I add features later?

Yes. Features can be added after launch via quotation. If a feature is already included in your package or absorbed by a bundle, you are not charged again for that inclusion.

Are domains included?

Domain registration / renewal is a third-party cost (HOST-DOMAIN). We connect your domain as part of website baseline work; the registrar fee is separate.

Is hosting included?

Website hosting is typically a third-party cost (HOST-HOSTING). SSL is included with supported hosting. Confirm hosting arrangement in your quotation.

Who owns the website?

Ownership and licence terms are confirmed in your agreement / quotation. Ask KasiTech to state IP and handover terms in writing before commencement.

Who owns the code?

Code ownership and repository access are commercial terms confirmed in your agreement - not altered by this catalog.

Can KasiTech update my website?

Yes - through Website Care plans and/or scoped change requests. Without Care, updates are quoted as separate work.

Do I need Website Care?

Not mandatory to launch, but recommended once the site is live so updates, security, and care have a clear commercial home.

Do I need KasiTech Business?

Only if you want the owner dashboard modules (analytics, bookings, customers, etc.). Many sites launch without it and add it later.

Can I use Website Care without KasiTech Business?

Yes. Care and KasiTech Business are separate selections.

Can I use KasiTech Business without Website Care?

Yes. They are independent - though many operators eventually want both.

What third-party fees are not included?

Examples include domain registration, hosting, payment provider fees, Google / advertising spend, and SMS gateway fees. These are disclosed as third-party and confirmed before approval.

What happens after I approve a quotation?

We commence the agreed scope, collect required content/access, build, review with you (including revision rounds where included), and launch.

How are payments made?

Payment schedule is stated on your quotation / invoice (milestones as agreed). Catalog prices are not invoices.

What happens after launch?

You may continue with Website Care, add KasiTech Business, or request new features. Demo Studio remains available to explore additions before you buy.
