

KasiTech

SERVICES & PRICING

A clear catalog of websites, features, bundles, and ongoing care for Tanzanian businesses.

Clear scope. Clear pricing. Built around your business.

This catalog shows approved KasiTech offerings and prices from our current Price Book. Scope is fixed for the stated package or service unless marked Custom Quote. Nothing extra is billed without your written approval.

How to use this

- Start with a website package — or an industry bundle if it fits.
- Add features your customers need (booking, payments, shop, SEO...).
- Choose Care and KasiTech Business if you want ongoing support.
- We'll confirm a formal quotation before any work begins.

Also useful

- Configure a build visually: kasitechinnovations.com/demo-studio

Prices are fixed for the stated scope unless marked Custom Quote. No additional work is billed without written approval. Formal quotations confirm final scope. Formal quotations confirm final scope, timeline, third-party fees, taxes, and commercial terms.

Every serious digital presence starts here. Pick the package that matches how much structure and content your business needs.

One Page

TSh 500,000

One scrolling page that explains who you are and how to reach you.
Best for: A focused presence — campaign, personal brand, or single offer.

Essential

TSh 900,000

Several pages, clear structure, and content your team can update.
Best for: Small businesses that need a complete professional website.

Business

TSh 1,500,000

Room for blog, portfolio, and richer forms — still clear for visitors.
Best for: Growing businesses with more services and content to publish.

Business+

TSh 2,250,000

More structure for departments, proof, and downloadable materials.
Best for: Organizations managing team, case studies, and resources online.

Professional

TSh 3,250,000

Advanced architecture for directories, careers, news, and tracking.
Best for: Organizations with multiple audiences and content types.

Signature

TSh 4,500,000

Custom interaction and premium craft — scoped as a signature build.
Best for: Brands that need a bespoke digital experience.

Custom Platform

Custom Quote

Scoped and priced after we understand the workflows involved.
Best for: Portals, dashboards, and operational systems beyond a brochure site.

Bundles combine a website with the features most businesses in that category need — often with approved savings versus buying each piece alone.
